 11. Regulation of the Minister of Trade Number 31/M-DAG/PER/7/2007 regarding Importer Identification Number (API);
 12. Regulation of the Minister of Finance Number 96/PMK.011/2008 regarding the Stipulation on Import Duty Tax Under the User Specific Duty Free Scheme (USDFS) in the Context of an Agreement between the Republic of Indonesia and Japan on an Economic Partnership;
 13. Regulation of the Minister of Trade Number 08/M-DAG/PER/2/2009 regarding the Requirements on Iron or Steel Import;

HAS DECIDES:

To stipulate : **REGULATION OF THE MINISTER OF TRADE REGARDING AMENDMENTS ON THE REGULATION OF MINISTER OF TRADE NUMBER 08/M-DAG/PER/2/2009 REGARDING THE REQUIREMENTS ON IRON OR STEEL IMPORT.**

Article I

Some of provisions in the Regulation of the Minister of Trade Number 08/M-DAG/PER/2/2009 regarding the Requirements on Iron or Steel Import are amended as follows:

1. The provisions in Article 1 number 1, number 2, and number 3 are amended, so Article 1 runs as follows:

Article 1

In this Regulation of the Minister, what's meant by:

1. Iron or Steel is a product from the melting of iron carbon mixed with a number of further mixed elements and polluter elements, and/or goods generated from those products.
 2. Iron or Steel Producing Importer, hereinafter shall be referred to as IP-Iron or Steel, is a company already holding an industrial business license or other licenses which imports iron or steel for the purpose of its production process or a company already holding an industrial business license or other licenses which imports iron or steel to be used by itself as a support for its production process or its business activity.
 3. Iron or Steel Registered Importer, hereinafter shall be referred to as IT-Iron or Steel, is a company already holding a business license which imports iron or steel product to be distributed to producing companies or end users.
 4. Verification or Import Technical Tracing is a technical inspection activity on Iron or Steel products made at the goods loading harbor by a Surveyor.
 5. Surveyor is a surveying company receiving an authorization to conduct the verification of technical tracing on imported goods.
 6. Minister is the Minister of Trade.
 7. Director General is the Director General of Overseas Trade, the Ministry of Trade.
2. The provisions in Article 3 are amended, so Article 3 runs as follows:

Article 3

- (1) To obtain such Recognition as an IP-Iron or Steel or such stipulation as an IT-Iron or Steel as referred to in Article 2 paragraph (1), a company shall have to submit an application to Director General by enclosing the documents of:
 - a. Importer Identity Number (API):

- 1) Producing Importer Identification Number/Limited Importer Identification Number/Special Importer Identity Number (API-P/API-T/API-K) for the company as an IP-Iron or Steel; or
 - 2) General Importer Identification Number (API-U) for the company as an IT-Iron or Steel;
- b. Company Registration Certificate (TDP), except for Cooperation Contract Contractor (KKKS) of Oil and Natural Gas;
 - c. Tax Payer Registration Number (NPWP);
 - d. Identity Number of Customs Affairs (NIK); and
 - e. Technical consideration from the technical nurturing Director General responsible for industry or energy and mineral resources sector.
- (2) Such Recognition as an IP-Iron or Steel or such stipulation as an IT-Iron or Steel as referred to in paragraph (1) shall be valid up to the expiry of this Regulation of the Minister.
- (3) Between Article 3 and Article 4 it is inserted 1 (one) article, i.e. Article 3A which runs as follows:

Article 3A

Each company can only have 1 (one) recognition as an IP-Iron or Steel or stipulation as an IT-Iron or Steel.

- (4) The provisions in Article 5 paragraph (5) are amended, so Article 5 runs as follows:

Article 5

- (1) On each importation of Iron or Steel by an IP-Iron or Steel or IT-Iron or Steel it must be firstly conducted a verification or import technical tracing by a Surveyor at the loading harbor prior to the shipment.
- (2) Such verification or import technical tracing by a Surveyor as referred to in paragraph (1) covers type of goods, goods classification/tariff post/HS of 10 (ten) digits, quantity, and the destined harbor.

- (3) The results of such verification or import technical tracing by a Surveyor as referred to in paragraph (1) shall be spelled out into the Surveyor Report (LS) form to be used as a customs supporting document in the settlement of customs affairs in import sector.
- (4) All costs of such verification or import technical tracing made the Surveyor as referred to in section (1) shall be borne by the relevant IP-Iron or Steel or IT-Iron or Steel.
- (5) Such requirements of verification or import technical tracing as referred to in paragraph (1) the following shall not apply on any Iron or Steel imported or Iron or Steel introduced to another place within a customs area from a Free Trade and Free harbor area as well as a Bonded Pilling yard by:
 - a. an IP-Iron or Steel in automotive industry and its components, electronic industry and its components, shipyard industry and its components as well as heavy equipment industry and its components;
 - b. an IP-Iron or Steel or an IT-Iron or Steel already receiving the stipulation as a Priority Lane Importer from the Directorate General of Customs of the Ministry of Finance;
 - c. User Industry holding an Industrial Verification Certificate (SKVI) through User Specific Duty free Scheme (USDFS) facility or other scheme facilities already stipulated by the Minister of Finance based on an International agreement (bilateral / regional / multilateral) which involve the Government of the Republic of Indonesia containing the requirements on Iron or Steel import;
 - d. A company already holding a valid Industrial Verification Certificate (SKVI) through the Government-Borne Import Duty (BM-DTP) Facility;
 - e. An Oil and Natural Gas Cooperation Contract Contractor Company (KKS Migas Contractor), a Mining Working Contract Company, a Contractor Company in the building and development of power plant industry for public interest, and a

building contractor company in the context of Public Interest Service for the downstream business activity of Oil and Natural Gas.

5. Between Article 6 and Article 7 it is inserted 1 (one) article, i.e. Article 6A which runs as follows:

Article 6A

- (1) On Iron or Steel of import original released from a Free Trade and Free Harbor Zone and from a Bonded Piling Yard to be introduced to another place within a customs area shall apply this Regulation of the Minister.
 - (2) On such Iron or Steel of import original as referred to in paragraph (1) must be made a verification or import technical tracing first by a Surveyor at the area where those goods is located.
6. The provisions in Article 9 are amended, so Article 9 runs as follows:

Article 9

The requirements in this Regulation of Minister shall not apply on:

- a. Iron or Steel included in Article 25 paragraph (1) and Article 26 paragraph (1) of Law Number 10 of 1995 regarding Customs Affairs as amended by Law Number 17 of 2006;
 - b. Iron or Steel imported temporarily;
 - c. Iron or Steel introduced to a Free Trade and Free Harbor Zone as well as a Bonded Piling Yard.
7. The provisions in Article 10 are amended, so Article 10 runs as follows:

Article 10

- (1) LS as a document that must be submitted by an IP-Iron or Steel or IT-Iron or Steel used as customs office supporting document in the settlement of customs affairs in import sector as referred to in Article 5 paragraph (3) shall commence in effect 45 (forty-five) days

since the stipulation of this Regulation of the Minister.

(2) LS as referred to in paragraph (1) shall be proved by a customs document in the form of manifest (BC 1.1).

8. Between Article 12 and Article 13 it is inserted 3 (three) articles, i.e. Article 12 A, Article 12 B, and Article 12 C which run as follows:

Article 12A

An IP-Iron or Steel and an IT-Iron or Steel issued on the basis of the Regulation of the Minister of Trade Number 08/M-DAG/PER/2/2009 regarding the Requirements on Iron or Steel Import shall remain apply and be treated in accordance with the provisions of this Regulation of the Minister.

Article 12 B

The obligation of IP-Iron or Steel for such user industry as referred to in Article 5 paragraph (5) letter c and such companies as referred to in Article 5 paragraph (5) letter d and letter e shall commence to be in effect 30 (thirty) days since the stipulation date of this Regulation of Minister.

Article 12 C

As of the effective date of this Regulation of Minister, Number 1 of Attachment I to the Regulation of the Minister of Trade Number 12/M-DAG/PER/3/2009 regarding the Delegation of Authority for the Issuance of Licenses in Overseas Trade Sector to the Enterprising Body of Batam Free Trade and Free Harbor Zone, the Enterprising Body of Bintan Free Trade and Free Harbor Zone, and the Enterprising Body of Karimun Free Trade and Free Harbor Zone is revoked and declared as null and void.

9. Attachment I to the Regulation of the Minister of Trade Number 08/M-DAG/PER/2/2009 regarding Requirements on Iron or Steel Import is amended to become as contained in the Attachment to this Regulation of Minister.

Article II

This Regulation of Minister shall commence to be in effect as of its stipulation date.

In order to let everyone be aware of, instructing the announcement of this Regulation of Minister by posting it in the State Gazette of the Republic of Indonesia.

117.	Other tubes and pipe (e.g. welded, riveted, or other similar connecting methods), of the type used for channeling oil or gas other than those welded longitudinally other than by sub-sea arch weld, having a circular cross diameter, its external diameter exceeds 406.4 mm, of iron or steel	7305.19.00.00
118.	Casing (e.g. welded, riveted, or other similar connecting methods), of the type used in oil or gas drilling, having a circular cross diameter, its external diameter exceeds 406.4 mm, of iron or steel	7305.20.00.00
119.	Pipe and tubes of stainless steel, welded longitudinally other than channeling pipe of the type used for channeling oil or gas or Casing of the type used in oil or gas drilling, having a circular cross diameter, its external diameter exceeds 406.4 mm	7305.31.10.00
120.	Pipe and tubes of iron or steel other than stainless steel, welded longitudinally other than channeling Pipe of the type used for channeling oil or gas or casing of the type used in oil or gas drilling, having a circular cross diameter, its external diameter exceeds 406.4 mm	7305.31.90.00
121.	Other pipe and tubes, welded, other than longitudinally welded, other than channeling pipe of the type used for channeling oil or gas or casing of the type used in oil or gas drilling, having a circular cross diameter, its external diameter exceeds 406.4 mm, of iron or steel	7305.39.00.00

No	DESCRIPTION OF ITEM	TARIFF POST
1	2	3
122.	Other tubes and pipe (e.g. riveted, or other similar connecting methods, other than welded), having a circular cross diameter, its external diameter exceeds 406.4 mm, of iron or steel. Other than channeling pipe of the type used for channeling oil or gas or casing of the type used in oil or gas drilling	7305.90.00.00
123.	Channeling pipe of the type used for oil or gas channeling pipe, welded, of stainless steel, other than circular cross diameter with the external diameter exceeding 406.4 mm	7306.11.00.00
124.	Channeling pipe of the type used for oil or gas channeling pipe, welded, of iron or steel other than stainless steel, other than circular cross diameter having an external diameter exceeding 406.4 mm	7306.19.00.00
125.	Casing and tubing of the type used in oil or gas drilling, welded, of stainless steel, other than circular cross diameter having an external diameter exceeding 406.4 mm	7306.21.00.00
126.	Casing and tubing of the type used in oil or gas drilling, welded, of iron or steel other than stainless steel of stainless steel, other than circular cross diameter having an external diameter exceeding 406.4 mm	7306.29.00.00
127.	Boiler tubing, welded, or non-mixed iron or steel, with a circular cross-diameter that has the internal diameter of 12.5 mm or more, other than those with external diameter of 406.4 mm	7306.30.10.20
128.	Steel tube of single or double buttress, of non-mixed iron or steel, gilded with copper or coated with fluorescent zinc –	7306.30.20.20

No	DESCRIPTION OF ITEM	TARIFF POST
1	2	3
129.	chromated, having a circular cross-diameter, with internal diameter of 12.5 mm or more, but its external diameter not exceeding 15 mm Tube, pipe and other profiles with cavity, welded, other than channeling pipe of the type used for oil or gas channeling pipe or casing and tubing of the type used in oil or gas drilling, not boiler tube or steel tube of single or double buttress, gilded with copper or coated with fluorescent zinc – chromated the external diameter of which not exceeding 15 mm with a circular cross-diameter, the internal diameter of which is 12.5 mm or more of iron or steel and non mixed steel	7306.30.90.20
130.	Boiler tube, welded, of other mixed steel, having a circular cross-diameter with internal diameter of 12.5 mm or more other than those with external diameter of exceeding 406.4 mm	7306.50.10.20
131.	Tube, pipe and other profiles with cavity, welded, of other mixed steel, having a circular cross-diameter other than boiler tube, as a high voltage conductor, with internal diameter of exceeding 12.5 mm, other than those with external diameter of exceeding 406.4 mm	7306.50.90.10
132.	Tube, pipe and other profiles with cavity, welded, having a circular or rectangular cross-diameter, with an internal diameter of 12.5 mm or more other than those with external diameter of exceeding 406.4 mm	7306.50.90.30
133.	Tube, pipe and other profiles with cavity, welded, having a circular other than square or rectangle, with an internal diameter of 12.5 mm or more	7306.61.00.90

No	DESCRIPTION OF ITEM	TARIFF POST
1	2	3
134.	Tube, pipe and other profiles with cavity, welded, having a non-circular other than square or rectangle, with an internal diameter of 12.5 mm or more	7306.69.00.90
135.	Pipe and bundy-weld tube (e.g. riveted, or other similar connecting methods, other than welded), of iron or steel, with a diameter of 12.5 mm or more, other than a circular cross-diameter with the external diameter of exceeding 406.4 mm	7306.90.10.90
136.	Tube, pipe and other profiles with cavity (e.g. riveted, or other similar connecting methods, other than welded), of iron or steel, non bundy-weld pipe and tube, other than a circular cross-diameter with the external diameter of exceeding 406.4 mm	7306.90.90.90
137.	Tubes or pipes supplementary tools (e.g. joint, angle fitter, cover) of un-forgeable poured iron	7307.11.00.00
138.	Tubes or pipes supplementary tools (e.g. joint, angle fitter, cover) of forgeable poured iron	7307.19.00.00
139.	Tubes or pipes supplementary tools in the form of flange of stainless steel	7307.21.00.00
140.	Tubes or pipes supplementary tools in the form of angle fitter, curve and cover, of stainless steel	7307.22.00.00
141.	Tubes or pipes supplementary tools in the form of flange of iron or steel other than poured iron or stainless steel	7307.91.00.00
142.	Tubes or pipes supplementary tools in the form of angle fitter, curve and cover, of iron or steel, other than poured	7307.92.00.00

	iron or stainless steel	
143.	Tubes or pipes supplementary tools in the form of butt welding supplementary tools of iron or steel	7307.93.00.00
144.	Structure in the form of bridge and parts of bridge, of pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.10.10.00
145.	Structure in the form of bridge and parts of bridge, other than pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.10.90.00
146.	Structure in the form of tower, of pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.20.11.00
147.	Structure in the form of tower, other than pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.20.19.00
148.	Structure in the form of grill pole, of pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.20.21.00
149.	Structure in the form of grill pole, other than pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.20.29.00
150.	Structure and parts of structure in the form of door, windows and their frames as well as the sills for door, of iron or steel	7308.30.00.00
151.	Structure and parts of structure in the form of equipment for scaffolding, windows covering leaf, propping and pit-	7308.40.10.00

	propping, of pre-fabricated modular type of the type connected to clipping connector, of iron or steel	
152.	Structure and parts of structure in the form of equipment for scaffolding, windows covering leaf, propping and pit-propping, other than pre-fabricated modular type of the type connected to clipping connector, of iron or steel	7308.40.90.00
153.	Structure (not including pre-fabricated building from post 94.06) and parts of structure of iron or steel; plate, small bar, angle, shape, section, tube and the kind, prepared for iron or steel structure requirement. Other than bridge and parts of bridge, tower and grill pole, door, windows and their frames as well as sills for door, equipment for scaffolding, window covering leaf, propping and pit-propping. Of pre-fabricated modular type of the type connected to clipping connector	7308.90.20.00
154.	Structure (not including pre-fabricated building from post 94.06) and parts of structure of iron or steel; plate, small bar, angle, shape, section, tube and the kind, prepared for iron or steel structure requirement. Other than bridge and parts of bridge, tower and grill pole, door, windows and their frames as well as sills for door, equipment for scaffolding, window covering leaf, propping and pit-propping, in the form corrugated plate, curved or bent galvanized to be assembled into an underground channel and water-channel, other than pre-fabricated modular type of the type connected to clipping connector	7308.90.30.00
155.	Structure (not including pre-fabricated building from post 94.06) and parts of structure of iron or steel; plate, small	7308.90.50.00

	bar, angle, shape, section, tube and the kind, prepared for iron or steel structure requirement. Other than bridge and parts of bridge, tower and grill pole, door, windows and their frames as well as sills for door, equipment for scaffolding, window covering leaf, propping and pit-propping. In the form of railing for vessel, other than pre-fabricated modular type of the type connected to clipping connector	
156.	Structure (not including pre-fabricated building from post 94.06) and parts of structure of iron or steel; plate, small bar, angle, shape, section, tube and the kind, prepared for iron or steel structure requirement. Other than bridge and parts of bridge, tower and grill pole, door, windows and their frames as well as sills for door, equipment for scaffolding, window covering leaf, propping and pit-propping. Other than pre-fabricated modular type of the type connected to clipping connector or corrugated plate, curved or bent galvanized to be assembled into an underground channel and water channel, or railing for vessel, twisted wire, string and cable, in the form of locked coil, flattened strands and non-rotating wire ropes of iron or steel, not isolated	7308.90.90.00
157.	Twisted wire, string and cable, in the form of Locked coil, flattened strands and non-rotating wire ropes of iron or steel, not isolated	7312.10.10.00
158.	Twisted wire, string and cable, which are gilded or coated with brass, and with a nominal diameter of not exceeding 3 mm other than Locked coil, flattened strands and non-rotating wire ropes of iron or steel, not isolated	7312.10.20.00
159.	twisted wire with a diameter of less than 3 mm, of iron or	7312.10.40.00
